## DETAILED ACTION

### ***Response to Amendment***

Applicant's arguments and amendments filed 02/28/08, with respect to claims, drawings and specification have been fully considered and are persuasive in overcoming the previous rejections under USC 112 and objections to claims, drawings and specification. The rejections and objections have been withdrawn.

Applicant's arguments, see 15, filed 02/28/08, with respect to claim 15 rejected under Belluche have been fully considered and are persuasive. The examiner agrees that the devices 94 of Belluche are not calibration blades as claimed in the present invention. The rejection of claim 15 has been withdrawn.

### ***Allowable Subject Matter***

Claims 15-22, 29, and 31-36 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

- With respect to claims 15, 31, and 32, the prior art taken alone or in combination fails to disclose or render obvious the gripping point of the security document able to be lowered relative to the nominal rotational diameter thereof as not to interfere with the calibration blades in combination with the rest of the limitations.
- The other claims owe their allowability on their dependence on the above stated independent claims.

***Conclusion***
